

Kelly Trice

Executive Vice President, Global Services, Nuclear

Kelly Trice was appointed Executive Vice-President, Global Services, Nuclear, on May 4, 2026. In this role, Kelly sets the vision and strategic direction to grow our nuclear services business.

He plays a critical leadership role in identifying growth opportunities, driving alignment and synergy across the organization, and executing the Nuclear Sector and Business Unit strategy.

Reporting to Joe St. Julian, President, Nuclear, Kelly is a key member of the Nuclear Sector Executive Team and leads the development, implementation, and oversight of all nuclear services

lines of business across the U.S. and EMEA.

Kelly has 35+ years of executive leadership experience, with extensive responsibility for full P&L, M&A, operations, and business development across multi-billion-dollar organizations operating both domestically and internationally. Most recently, he served as President of Holtec International, following executive leadership roles including Executive Vice President at Bruce Power, and President of both the CB&I power and maintenance divisions.

Kelly's background includes deep expertise in nuclear services, major project capture and delivery, joint ventures, and work across U.S. Department of Energy and nuclear power generation operations. Kelly is widely recognized as an inspirational, data-driven leader with a strong commercial mindset and a proven track record of delivering profitable growth and building long-term client relationships.

Kelly holds an MBA from the University of New Mexico and a Bachelor of Science in Chemical Engineering (Honours) from the University of Oklahoma, along with Nuclear Engineering and Nuclear Power School credentials. He also previously served as a Lieutenant in the U.S. Navy (Submarines), with inactive DOE Q and DOD TS clearances.
