

VILAS KUCHINAD

MANAGING DIRECTOR

GLOBAL HEAD OF ORIGINATION, GLOBAL INFRASTRUCTURE & SUSTAINABLE FINANCE GROUP

Vilas Kuchinad leads Origination for the Global Infrastructure & Sustainable Finance Group (GISFG), part of Bank of America's Global Capital Solutions business. The Origination team focuses on product coverage and business development across infrastructure and sustainable asset classes by engaging with financial sponsors, developers, and corporates to understand capital needs and originate lending and financial advisory transactions. The team also engages with sponsors and companies in new sustainable asset classes and emerging climate and digital infrastructure technologies. The Origination team works with partners across Bank of America to identify key venture, growth, and infrastructure funds with whom BofA can deepen overall working relationships.

Prior to Bank of America Vilas worked at Deutsche Bank in its structured finance business focused on private credit for sustainable finance, infrastructure, energy, and middle market companies. He started his career in real estate development focused on acquisitions for two national developers.

Vilas is a member of the Board of Trustees of DREAM Charter School. DREAM is an educational and youth development organization, serving over 2,500 children in the New York City area.

Vilas is a graduate of Carnegie Mellon University
